

# **MO Signature Model Portfolio**

A portfolio crafted with research.  
Powered by conviction.

## What is MO Signature MP?

MO Signature Model Portfolio is a flexi-cap portfolio of 20 carefully chosen stocks—equally weighted across large, mid, and small caps. Every stock is handpicked from Motilal Oswal's extensive research universe of 330+ companies, making this portfolio a blend of stability and growth potential.

## Key Features at a Glance

## Our Investment Edge

**Universe**  
330+ Motilal Oswal research covered companies

**Process**  
Guided by the proven QGLP philosophy (Quality, Growth, Longevity, Price). Businesses with strong models, healthy balance sheets, and growth potential are shortlisted. Diversification across key sectors ensures stability.

**Strategy**  
Fundamental research is combined with real-time market insights; earnings, news flow, and events to spot timely opportunities.

## What Makes **MO Signature MP** Unique?

- QGLP-driven framework for consistent wealth creation
- Institutional-grade research powering sharper decisions
- Active rebalancing when profit is booked, opportunities shift or criteria are no longer met

MO Signature is designed for investors with a horizon of 1+ years, seeking a diversified, research-backed, high-conviction portfolio.

## **For Whom**
